

BOWNET

ELITE SERIES

The largest and strongest in the Bownet family of baseball and softball training nets. The Elite Series nets are designed for the heavy hitters, and meant to withstand the rigorous drills of college players and up through the pros. Heaviest gauge netting, strong canvas trim, heavy duty steel legs and thickest fiberglass poles make these nets the most durable in the industry.

- Large 8' x 8' frame size and heavier weight for more support with bigger players

- Stronger canvas trim, heavier gauge netting and thicker fiberglass poles for better energy absorption

- Netting is attached to frame for stronger hold and allows for quicker set-up and take-down but can still be replaced if needed

- Heavy duty steel collapsible legs makes the Bownet Elite Series the only portable pro practice and protection nets
