

# BOWNET<sup>®</sup> SOCCER

**The World's Best Portable Sports  
Nets, Goals, Training Systems  
and More!**

In 2003 Bownet revolutionized the sports industry by creating the first ever portable nets and goals using the “BOWpole” technology.

Starting with the idea that nets and goals should be easier and safer to use for all ages and should be so simple to set up that more time could be spent coaching, playing and just having fun.

Today Bownet has 13 different soccer goals for every age group, every level of player and every type of game. From USSF regulation and Futsal to 3v3 and 5-a-Side. Plus, Soccer Tennis and Field Barriers, all designed to work together for an endless combination of training options.

**EAS**<sup>®</sup>  
**ENERGY ABSORPTION**  
**SYSTEM**<sup>®</sup>

Bownet’s Energy Absorption System<sup>®</sup> is the foundation to these extremely durable, portable nets and goals that are so strong they could be used by elite players for full game play and will outlast all other nets on the market.

**Simple**

Sets up in as little as 60 seconds.

**Safe**

No guide wires or heavy crossbars.

**Superior**

The EAS<sup>®</sup> design allows the goals to flex and bend reducing stress and tension on the net which not only increases the lifespan of the netting, but also creates a more stable and balanced goal.

# THE BOWNET ADVANTAGE

# BARRIERS

Managing shared space for practice and games can often be a challenge and even an issue of safety. Coaches, Leagues, Schools, Parks and Facilities struggle with the challenge of running multiple teams, even multiple sports, in small spaces. Chasing balls all over the field not only brings your game or practice to a halt but can also become an issue of player or spectator safety. Bownet Barriers are the perfect solution for preventing a missed pass or shot at goal from traveling into the game next door or even into the stands.

## Barrier Net
